

Priasoft Migration Suite for Microsoft Exchange

Mailbox Migration Manager is built by Exchange professionals and is the highest-rated Exchange migration solution on the market.

New Version 5.0!

The Challenge:

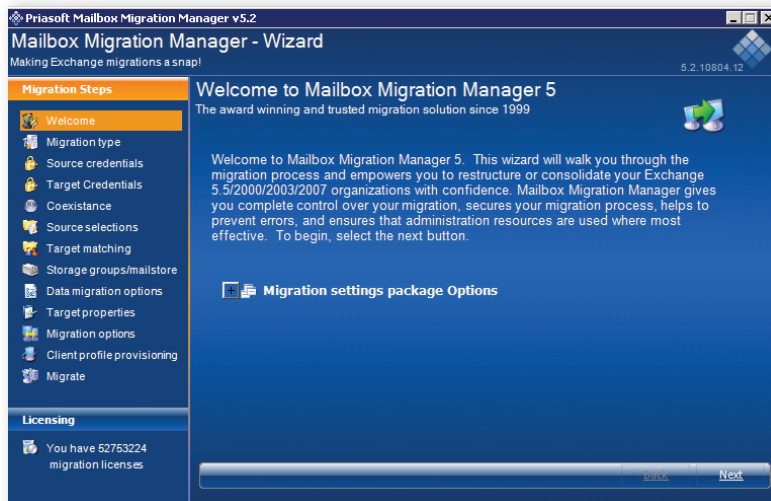

You know how gut-wrenching Exchange-to-Exchange migrations can be. Lose just one mailbox for even an hour and you'll definitely hear about it. Lose more, and the whole organization could come banging down your door. That's where a proven approach with an experienced solution provider can make all the difference.

The Solution:

Priasoft's Migration Suite for Exchange ensures that even the smallest details of your migration are not overlooked—no matter what versions of Exchange you're migrating between—5.5, 2000, 2003 or 2007. Accelerate your migration, reduce or eliminate user downtime and save valuable administration time—all at a fraction of the average per-mailbox migration cost of other solutions—making you look like an Exchange migration expert.

KEY BENEFITS

- ❖ Accelerate migration with a proven approach to Exchange migration planning, testing and execution.
- ❖ Streamline migration with analysis and clean-up of your current environment prior to migration.
- ❖ Accommodate migration scenarios with wizard-assisted migration technology to guide you through the process.
- ❖ Minimize user impact and errors with automation of tedious migration tasks and accurate migration of calendars, appointment and folder permissions.
- ❖ Reduce migration risk with anytime reversal during or after the migration.

With Priasoft's Migration Suite for Exchange you can migrate between any version of Exchange—5.5, 2000, 2003 or 2007—with ease.

PRIASOFT'S MIGRATION SUITE FOR EXCHANGE HELPS WITH:

- ❖ Mailbox Migration
- ❖ Public Folder Migration
- ❖ Group Migration
- ❖ Distribution List Migration
- ❖ Profile Updates
